01

CUSTOM-BUILT OEM

Discuss reinforcement placement, cuff construction, materials and branding for the selected GE reference.

02

SAMPLES BEFORE BULK

Review samples for the agreed construction, dimensions and fit before approving bulk production.

03

DIRECT EXPORT VALUE

In-house manufacturing in Pakistan, flexible MOQ discussions and export packaging agreed with your order.

THE DIRECT FACTORY **ADVANTAGE.**

Graato Exports manufactures industrial gloves and safety wearables in-house in Pakistan. We work with PPE distributors, importers, private-label brands, safety managers and procurement teams across the USA, Gulf, Europe and global markets.

THE 4-STEP SAMPLING & SUPPLY PIPELINE

Samples before bulk orders

STEP 01

APPLICATION & MARKET REVIEW

Share the task, work conditions, destination market, quantities and preferred GE references.

STEP 02

SPECIFICATION & SAMPLES

Agree materials, dimensions, construction details and sample requirements for the selected model.

STEP 03

SAMPLE REVIEW

Review fit and construction alongside required product documentation. Record any sample changes.

STEP 04

APPROVED BULK PRODUCTION

Confirm the specification, size run, labels, packaging and delivery plan before production.

MATERIAL SPECIFICATION

Specify leather type, textile or coating construction by model. Confirm thickness, weight and component coverage with the agreed sample.

PRIVATE LABEL & BRANDING

Discuss label placement, artwork, packaging and carton markings. Branding methods are reviewed against the selected construction.

REINFORCEMENT LAYOUT

Document palm, thumb, knuckle or garment reinforcement placement. Performance requirements remain tied to the complete specification.

SIZING & GRADING

Agree the size chart, dimensions, tolerances and quantity breakdown. Check samples for fit before bulk approval.

DISCUSS YOUR SUPPLY REQUIREMENTS

Contact us by WhatsApp or email to discuss product references, samples and order planning.

WhatsApp: **+923299888928**

Email: **Contact@graatoexports.com**

CATALOGUE DIRECTORY & INDEX.

94 GE catalogue references across five print sections. Some references show several designs or colour presentations; these are identified on the product cards. Browse individual families on our website.

01**WELDING GLOVES & WEARABLES**

Gauntlets, sleeves, jackets, aprons, cropped yokes, trousers and gaiter designs.

Pages 04 – 12**35 GE REFERENCES + OPTIONS****02****INDUSTRIAL WORKWEAR & OTHER GARMENTS**

Coveralls, separate workwear sets, vests, hooded garments and apron designs.

Pages 13 – 17**20 GE REFERENCES****03****LEATHER WORK, DRIVER & ASSEMBLY GLOVES**

Leather-palm, driver-style and extended-cuff constructions with different panel layouts.

Pages 18 – 22**18 GE REFERENCES + GUIDES****04****MECHANIC-STYLE GLOVES**

Amara synthetic-leather palms, textile backs and model-specific reinforcement details.

Pages 23 – 25**12 GE REFERENCES****05****COATED, RUBBER/PVC & KNIT GLOVES**

Nitrile, PVC and natural-latex constructions, dotted cotton and knit glove displays.

Pages 26 – 28**9 GE REFERENCES + OPTIONS****ORDER QUANTITIES**

Minimums depend on construction, materials, size run and branding. Share your planned quantities for review.

SAMPLES BEFORE BULK

Sample arrangements and timing are confirmed after the proposed specification is reviewed.

EXPORT PLANNING

Agree destination, packaging, shipment terms and lead time with the order specification.

**GE-093**

[VIEW ONLINE](#)**WELDING SPEC**

SPECIFICATION OPTIONS

BUILD A WELDING SPECIFICATION

Start with the welding process and complete garment or glove construction.

- Identify the preferred GE reference, materials and coverage.
- Agree cuff, sleeve, fastening and reinforcement details.
- Review relevant product documentation for the intended process.
- Approve sample construction and dimensions before bulk.

Discuss the selected construction with Graato Exports.

[VIEW ONLINE](#)**MATERIALS**

SPECIFICATION OPTIONS

COMPARE LEATHER CONSTRUCTIONS

A material name describes a construction, not a tested protection level.

- Record grain or split surface and the specified hide.
- Define material coverage across palm, back, fingers and cuff.
- Confirm thickness, lining and reinforcement with the sample.
- Match any performance claim to the final product documentation.

Discuss the selected construction with Graato Exports.

[ENQUIRE](#)**PRIVATE LABEL**

SPECIFICATION OPTIONS

SPECIFY YOUR BRANDED RANGE

Use a consistent product and packaging brief for each GE reference.

- Confirm logo files, colours and permitted print areas.
- Discuss the branding method for the selected material.
- Agree labels, size identifiers, barcodes and carton marks.
- Review packaging artwork before bulk approval.

Discuss the selected construction with Graato Exports.

Rib-knit construction

CONSTRUCTION SHOWN

Three knit-glove colour presentations with ribbed cuffs and contrasting bound openings.

SELECTION

Identify your preferred design or colour when enquiring.

Final specification & dimensions confirmed with sample.

[VIEW ONLINE](#)**COATINGS**

SPECIFICATION OPTIONS

DISCUSS COATING SELECTION

Specify the coating and liner rather than relying on colour or appearance.

- Confirm the coating chemistry and liner construction.
- Choose the required working-side coverage and texture.
- Document work conditions and any relevant exposure.
- Review applicable evidence for the complete specification.

Discuss the selected construction with Graato Exports.

[ENQUIRE](#)**KNIT LINERS**

SPECIFICATION OPTIONS

DEFINE THE TEXTILE CONSTRUCTION

Agree the liner specification and fit for the selected model.

- Confirm fibre composition and knit construction.
- Define the size chart, cuff and bound-edge details.
- Review the coated or dotted zones where applicable.
- Approve sample fit and the final component specification.

Discuss the selected construction with Graato Exports.

[ENQUIRE](#)**COVERAGE**

SPECIFICATION OPTIONS

CHOOSE A COVERAGE LAYOUT

Coating coverage and cuff length are construction choices.

- Record palm, fingertip, knuckle or full-glove coverage.
- Specify dot layout where a dotted design is selected.
- Confirm cuff profile, opening and overall dimensions.
- Review required product documentation before use.

Discuss the selected construction with Graato Exports.

[ENQUIRE](#)

**SIZE RUN & FIT CHECKLIST**

PRODUCT GROUP	DIMENSIONS TO AGREE	SAMPLE REVIEW
Gloves	Hand length, palm width, finger lengths and cuff opening	Check the selected construction across the proposed size run.
Jackets / coveralls	Chest, shoulder, sleeve, body and leg dimensions	Review movement, overlap and fit with other equipment.
Aprons / sleeves / spats	Coverage, openings, strap positions and adjustment range	Identify the preferred design and record the measured sample.

MATERIAL & CONSTRUCTION RECORD

ELEMENT	SPECIFICATION INPUT	CONFIRMATION
Leather	Hide, grain/split surface, coverage, thickness and reinforcement	Agree per model and sample; do not infer a grade from colour.
Textile / coating	Fibre, weight, knit/weave, coating chemistry and coverage	Confirm the exact construction before assigning a performance claim.
Garment details	Seams, thread, closure, trim, pockets and tape layout	Record component choices and complete garment construction.

DOCUMENTATION & ORDER APPROVAL

STAGE	BUYER AND SUPPLIER REVIEW	RECORD
Application	Task, work conditions, destination and required standards	GE reference and application brief
Documentation	Relevant reports and declarations for the exact specification	Product-specific document references
Bulk approval	Sample changes, quantities, labels, packaging and timing	Approved specification and order documents

Required standards and documentation are reviewed for the selected product and market. Catalogue descriptions and images identify constructions; they do not assign a protection rating. Current dimensions and material details are agreed with the sample.
